Summary

I'm taking my career into a new direction and planning to become a Web Developer. At the moment I am learning the basics of coding, in HTML5, CSS3 and Javascript. Later on I will learn the ins and outs of JavaScript, envision and code both the client-side and the server-side of powerful, innovative products.

Challenges

I already made my first responsive web design -a portfolio page. In a couple of month I will be "working on a new product", that sounds pretty neat!

Next steps

- * Become a Full-Stack Web Developer!
- * Job orientation and preparation
- * Learning more about UI/UX Design

English Teacher Preschool (Kindergarten)

September 2014 - October 2015 (1 year 2 months)

Kirchseeon

Tell me and I forget * Teach me and I remember* Involve me and I learn

Preparing and teaching English lesson for Preschool and Kindergarten. I put a lot of my creativity and enthusiasm into it to keep the little ones engaged!

The lessons are active with songs, games, arts & crafts et cetera. In order to get them to 'passively' pick up the language. The vocabulary and the rhythm of the language are easily learned through songs. With the use of selfmade visual materials, a hand puppet, music, a lot of creativity, and energy. This job allowed me to grow as a teacher, and to utilize my organization as well as pedagogical skills.
